

Adorable Puppy Brownny needs Forever Home!

Brownny was a stray puppy rescued from a vacant lot in Beijing. He was taken in by a very kind foster family and is now a healthy, beautiful puppy and ready for his forever home.

Brownny is a fun, curious, playful, energetic puppy. He is a little shy at first but will quickly become affectionate and will slather you with kisses. He loves to play and enjoys spending time with his favorite people, learning new tricks, and delicious treats. Brownny was one of 4 puppies in his litter so he gets along with other puppies and dogs. He is easygoing, independent and eager to please and would make a great companion.

Ideal home: Brownie would be happy with an individual, a couple or a family with children (e.g., 8 years and older) with or without other pets. The families must be ready for the responsibilities of adopting a young puppy, with toilet training and obedience training essential to help the puppies become housebroken and socialized. Everyone in the household must agree on having a young puppy as a new family member. A pet is for life so Snowy must relocate with his family when departing China.

Breed, Sex & Age: Brownie is about 6 months old. He will remain a small sized dog and may be registered in any district in Beijing. Brownie is a male dog with beautiful brown and white fur.

Medical notes: Brownie has been dewormed and has already started on his vaccinations. He has already been neutered at ICVS.

"Official Spay/Neuter Certificate for Dogs: As I have already been neutered by ICVS, the hospital will issue my new family the official Spay/Neuter Certificate that will provide my owner with 50% discounts (e.g., up to RMB 500.00 savings) on my dog license registration fee at the Public Security Bureau!☺

Post-adoption care: The International Center for Veterinary Services (ICVS) has enrolled us into their Rescued/Stray/Rehomed Pet Adoption Benefits Program. ICVS will provide our new families with significant discounts (up to 50%) on vaccinations, accompanying health examinations and neuter surgeries during our first year of life with our new adoption families.

Official Vaccination Certificate: With our rabies vaccinations, ICVS will issue our families the official Beijing Animal Health and Immunity Certificates (e.g., vaccination red books) at no charge! We need the official vaccination red books to prove we have been legally and properly rabies vaccinated to move to another city or to leave China with our families.

Pet Import/Export Counseling: ICVS will provide our families with unlimited relocation counseling and accurate information to take us with them when it is time to move to another city or to another country.

Door-to-Door Pet Transport Service: ICVS can help our new families arrange for a car and driver service to take us door-to-door for our appointments at the hospital! Contact ICVS: www.ICVSASIA.com

ICVS Non-Profit Humane Animal Welfare Programs:

Please support and donate to the ICVS Non-Profit Humane Animal Welfare Programs:
