Dear Management Agent,

Thank you for helping to keep the mosquitoes, ticks and bugs away from our compound.

We wish to keep our children, pets and families safe during and after the spraying of pesticides and repellants.

Please help inform all of the residents of this compound of the dates and times when you will be spraying pesticides and repellants. Please also help to post up signs around the areas that have been sprayed and the dates of the spraying.

Thank you very much for your cooperation and support!

The residents of ___________________________________

Date: ____

(If Chinese communications required, you are welcome to contact the International Center for Veterinary Services for assistance at: 8456-1939/1940/1941.)
